* Conține conținut reciclat, în așteptarea certificării SCS

 Aceste culori au fost certificate de SCS Global Services pentru a avea unul dintre cele trei niveluri minime de materiale reciclate pre-consumator: 6%, 10% sau 14%. Culori cu litera D: realizate cu Deep Colour Technology™. Culori cu litera E: disponibile în grad de ignifugare (Euroclass B, s1, d0) pentru aplicații de placare exterioară. Culori cu litera K: pentru aplicații în bucătării și în alte medii cu utilizare intensă/grea (pot apărea doar urme mai puțin vizibile și pot fi vizibile în condiții de iluminare specifice). Culorile cu :  conțin material reciclat.

Reprezentarea imprimată a culorilor poate varia față de mostrele reale. Vă rugăm să vizualizați eșantionul real înainte de a cumpăra.

Corian® Solid Surface Calacatta Greige (blat de lucru, pereți laterali și splashback)
și Corian® Solid Surface Cameo White (chiuvetă integrată).

CARACTERISTICI ȘI BENEFICII

IGIENIC & UȘOR DE CURĂȚAT: Un finisaj neted, fara pori, împiedică lichidele să pătrundă în suprafață, ceea ce îl face ușor de curățat cu apă și săpun. Datorita structurii omogene bacteriile si mucegaiul nu se pot dezvolta pe suprafata.

REPARATIBIL & REGENERABIL: Conceput pentru a rezista la utilizarea zilnică si pentru a menține un aspect uimitor timp de mulți ani. Zgârieturile, ciobiturile și deteriorările pot fi reparate pentru ca fiecare suprafață să arate ca nouă.

DESIGN FARA LIMITE: Ușor de tăiat, de găurit, cu posibilitatea de a fi iluminat din spate și de a fi termoformat, pentru a crea forme organice sau liniare, oferind o adaptabilitate fără limite si posibilități infinite de design

FIN & CALD: O senzație unică și stralucire pentru conceptele dvs. de design. Plăcută și netedă la atingere cu suprafața sa asemănătoare mătăsii, se integrează perfect în orice spațiu

PRIETENOS CU MEDIUL: Un material cu emisii volatile organice (VOC) scăzute, fără substanțe chimice periculoase, care contribuie la o calitate mai bună a aerului din interior. O parte din gama de decoruri conține materiale reciclate, iar facilitățile noastre de producție au zero deșeuri eliminate la gropile de gunoi.
